Cabins for Sale

Why not have a holiday every week?

There are often log cabins available to buy in Trawsfynydd Holiday Village, so why not become an owner of your very own holiday home. All the Norwegian style log cabins are detached, have an allotted parking space, are for holiday purposes only and are subject to an 11-month occupancy restriction.

Cabin sales prices depend, as with all properties, on position and condition. 2-Bedroomed cabin prices typically start from £35,000. There are both freehold and leasehold cabins in the village. Leasehold properties incur an annual ground rent, whilst freehold properties pay a site service charge, both incur sewerage/water fees, all of which are payable to Trawsfynydd Holidays Ltd. Current charges can be obtained from the reception. Electricity and council fees are collected by the respective authorities.

Details of log cabins currently for sale can be obtained from the village reception between 9am and 5pm or viewed on our website:

www.logcabinswales.co.uk

If you have any questions about the details or would like to arrange a viewing please contact the reception.

If the cabins currently for sale do not meet your requirements, and you would like to register your interest for future cabins that come onto the market, please provide your details by logging onto the “Cabins for Sale” page of our website or telephoning our reception.

Cabins for Hire

Trawsfynydd Holiday Village is open all year except for November and our cabins can be hired for a short break or a week or two. All the log cabins on site are privately owned and so the layouts shown below depict a typical cabin. Every cabin will vary a little from these depictions, as each owner will have personalised their cabin for example by using different furnishings, changing the layout a little or extending the veranda and decking areas. Many of our owners allow a pet to stay, but not all. Descriptions and pictures of each cabin can be found on our online booking pages.

2-bedroomed cabins

The 2-bedroomed cabins generally sleep 4 having a double bedroom and a second room with bunk beds. Each cabin has a lounge, bathroom and a fully equipped kitchen. The layout is normally as shown:

Layout 1

3-bedroomed cabins

The 3-bedroomed cabins generally sleep 6 having a double bedroom and 2 further rooms with bunk beds. Each cabin has a lounge, bathroom and a fully equipped kitchen. There are 2 different layouts, as shown:
